Empowering
Women to Lead
across Sectors: Role
of Digital Skilling and
Future Skills."

आश्त 2023 INDIA

वयुंघेव कुदुम्बकम्

ONE EARTH • ONE FAMILY • ONE FUTURE

OVERVIEW

India has assumed the G20 Presidency with effect from 1st December 2022 for a year up to 30th November 2023.

India's G20 Presidency's theme of
'Vasudhaiv Kutumbakam' - One Earth,
One Family, One Future' stresses upon the
need for an inclusive, ambitious, decisive,
and action-oriented approach towards
our common future in which women-led
development is a key aspect.

In the G20 framework, the G20 Alliance for the Empowerment and Progression of Women's Economic Representation (G20 EMPOWER) which was launched during the G20 Osaka Summit in 2019, aims to accelerate women's leadership and empowerment in the private sector by leveraging its unique alliance among business leaders and governments across G20 countries.

Under India G-20 Presidency, EMPOWER 2023 will be taking forward the cause of women's empowerment and women-led development where issues of young women in education, science and STEM, digital skilling, women's co-operative's in the farm sector, women in local governance and as grassroots functionaries involved in financial inclusion, health, nutrition and water management, entrepreneurship and leadership will be focused upon.
